Idaho Digital Learning Alliance's (IDLA) credit recovery courses combine an engaging interactive curriculum and deeply engaged IDLA teachers with school-led intervention. In partnership with the District, these courses provide the essential asynchronous content needed to provide students with a high level of learning. IDLA provides the NCAA approved course content that is aligned with Idaho state content standards, the Learning Management System, teachers, and internal support staff. Districts provide local personnel to support the students with intervention support, social-emotional support, physical and/or virtual technical access to courses, and transcription of credits.

For the 2023-2024 School year, IDLA is offering 9 week sections of the courses below. Courses are divided into 8 units; one unit a week. A ninth week allows for students to complete any missing work and to redo assignments. Daily attendance is a required component of students in these classes, and is based upon daily completion of course work.
