Idaho Digital Learning Alliance's (IDLA) credit recovery program is a hybrid approach of a traditional IDLA custom session and a district-led intervention program. In partnership with the District, these courses combine synchronous live instruction with asynchronous curriculum to provide students with a high level of learning. IDLA will provide the course content, Learning Management System, teachers, and internal support staff. Districts will provide local personnel to support the students with intervention support, social-emotional support, physical and/or virtual technical access to courses, and transcription of credits.

In the Fall 2021 semester, IDLA is offering 8 week sections of the courses below. During the first week of class, each teacher will work with their students to determine the best time of day for their daily synchronous sessions. Students who are unable to make the synchronous session may review an archive of the session and will need to complete the daily lesson activity to meet the attendance requirement for the day. Students who do not meet daily attendance requirements will be marked absent. Students who have reached 12 total absences for the course will be dropped from the class.
