Dual Credit Registration Checklist

To receive college credit from a dual credit course offered through the Idaho Digital Learning Alliance (IDLA), students must register with both IDLA and the college or university offering the credit. If students are using Advanced Opportunities funding to pay for the cost of their college credits, they must also be registered in the state Advanced Opportunities Portal. The following is a checklist to help ensure students complete the registration process. Note that the specific registration forms and deadlines for each college and university will differ.

Students are strongly encouraged to visit the IDLA Advanced Opportunities webpage to find up-to-date contact information for each college or university, as well as a link to registration materials for each college or university.

Register through IDLA

- Talk to your parents and your school Site Coordinator about dual credit courses offered through IDLA. A full list of course offerings can be found on the Course Catalog: [https://idiglearning.net/CourseCatalog](https://idiglearning.net/CourseCatalog)
- Be sure you meet any prerequisite requirements for the course prior to registering for the course.
- Work with your Site Coordinator to register for the course through IDLA.
- Check your registration confirmation email for the course start date and other important information.
- Order books if required. This will be indicated on your registration confirmation email. There is an option to rent books at [https://idla.rental.sidewalkpro.com/](https://idla.rental.sidewalkpro.com/)

Register through the college or university

- Talk to your parents and your school Site Coordinator about the benefits and drawbacks of college credit available through a dual credit course.
- Register as a student through the college or university offering credit in your course. For specific registration forms and deadlines, visit the IDLA website: [https://www.idahodigitallearning.org/students-parents/advanced-opportunities/](https://www.idahodigitallearning.org/students-parents/advanced-opportunities/)
- If you are taking a course with credit offered through CSI, CWI, or NIC, you must also complete a certificate of residency with your county. Students taking a course with credit offered through BSU, U of I, LCSC, or NNU may skip this step.
- Once registered as a student, enroll in the college course section. To do so, you will need your teacher’s name and the section number. This information will be found within your IDLA course.

Provide payment for the course

- Talk to your parents and your school Site Coordinator about Advanced Opportunities funds provided by the State of Idaho. Determine whether or not to use these funds to pay for the cost of your college credits.
- Using Advanced Opportunity funding? Work with your school Site Coordinator to register through the state Advanced Opportunities portal.
- Not using Advanced Opportunity funding? Provide payment to the college or university, or set up payment arrangements with the college or university.

For more information about the program and a full course catalog, visit the Idaho Digital Learning Alliance website at [www.IdahoDigitalLearning.org](http://www.IdahoDigitalLearning.org) or call 208.342.0207.
**Classes**
Talk to your Site Coordinator

1. **Credit**
Determine if you want to earn college credit
