

SLP/OT Services - Teletherapy 101

Idaho Digital Learning Alliance's nationally renowned accredited program offers flexibility, opportunity and student success! With this innovative partnership with PresenceLearning, IDLA is able to bring Speech Language Pathology and Occupational Therapy services to Idaho districts.

PresenceLearning is the leading provider of live, online special education and related services for K-12.

- Online Speech Language Therapy - Online SLPs do the same job as onsite therapists: they administer assessments and write evaluations, prepare IEPs and goals, serve as case managers, attend IEP meetings, track and report on student progress, schedule students, and communicate with parents and staff.
- Online Occupational Therapy - Therapists provide direct and consultative student services, conduct evaluations, and attend team meetings.
- Online Behavioral and Mental Health Therapy - Online counseling services for Tier 2 and 3 students as well as Behavior Intervention Groups for Tier 2
- Psychoeducational Assessments - Remotely deliver psychoeducational assessments with validity.
- Teletherapy 101 - Teletherapy or Tele-assessment training, support and platform access for district providers to build their own teletherapy programs.

Please contact your Regional Coordinator to schedule a demonstration for hourly therapy, for use of the Teletherapy 101 platform, fee inquiries, or additional information about testing services available.

Services through Idaho Rural Education Association

Idaho Rural Education Association (IREA) members receive \$100 off the first billing for SLP/OT services each year of participation.

If you are interested in learning more about the IREA and becoming a member to receive this benefit, please visit:
